Sjukvård i Sverige - ansvar för vårdköerna - Socialstyrelsen?

En jämlik vård i hela landet och nationell styrning?

Samordningsansvar för vårdköerna?

Tyskland/Germany (EU) reported **hospital beds** (data 2017)

with **800 hospital beds per 100 000** population.

Austria and Hungary also recorded more than 700 hospital **beds** per 100 000 inhabitants

Några redovisade omständigheter i nyhetsmedia:

v 17 2020 gjordes 67% färre operationer jfr med normalvecka i Sverige

v 19 hade Sörmland **ställt in 90 procent av alla planerade operationer**

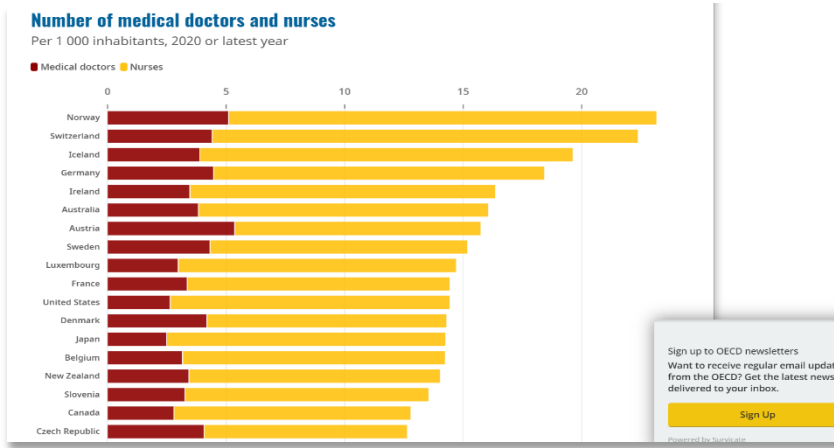

... mindre drabbade regioner som **Västerbotten fick ställa in 44 procent...**

...när pandemin är över står vi med **jämlikhetsklyfta** i svensk sjukvård

... måste hjälpas åt **beta av vårdskulden**

...enskild **region kan inte mäkta med ansvaret för jämlik vård**

Staten måste ta ansvar för effekterna av pandemin

These are the top 10 countries with the best healthcare in the world.

- Canada
- Qatar
- France
- Norway
- New Zealand
- Germany
- Hong Kong
- The Netherlands
- Switzerland
- Singapore

Hospital beds (per 1,000 people) - Antal vårdplatser tillgängliga

Sweden 2018 2.1 (2020 2.8)?

Switzerland 2018 4.6

Germany 2017 8.0

Japan 2018 13.0 (2020 16)?

...curative care beds in hospitals - vårdplatser i svenska sjukhus, och framtiden?

Number of medical doctors and nurses 23/08/2021

As health professionals were mobilised to play the role of first responders when COVID-19 hit, health systems have sought ways to increase the number of staff available and to make the best use of their work.

Countries with high numbers of doctors and nurses may have a greater capacity to respond to the COVID-19 pandemic as it continues. In countries with fewer doctors and nurses per population, the existing workforce continues to be even more stretched in their attempts to address care demands arising from the COVID crisis.
